2014 Nunavut Food Price Survey

March 2014

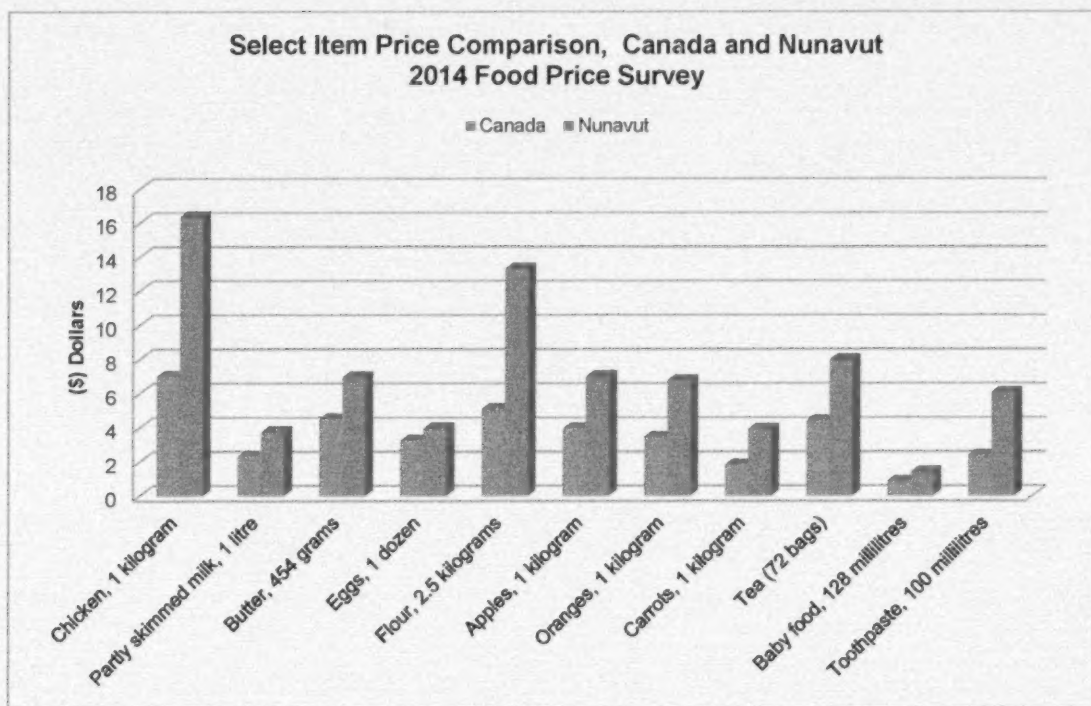

Released by the Nunavut Bureau of Statistics – June 2014

Background:

In March 2014, a food price survey was conducted across all 25 Nunavut communities. 133 items, which included 18 non-food items, were surveyed by Government Liaison Officers in each community. All 25 communities returned usable data.

The Nunavut Bureau of Statistics will release a series of community level food price data tables in the upcoming months. The first data table released compares 33 Nunavut food prices to those recorded in the monthly CPI Food Price Basket, prepared by Statistics Canada.

Details:

Notes:

1. Nunavut price is the average price of each selected item for all reporting Nunavut communities.
2. All prices, including those in the Canada CPI Food Price survey are taken from March 2014.

For the complete tables showing food prices for select items across all 25 Nunavut communities and the comparison with the rest of Canada see the release – "Food Price Survey: Comparison vs. Canada CPI Food Price Basket 2014" by visiting the Nunavut Bureau of Statistics Website at: <http://www.stats.gov.nu.ca/en/home.aspx>.
